Wyckham Blackwell is committed to protecting the environment from depletion and degradation. As a company based on manufacturing with timber, we recognise the issues of sustainability and embrace them.

To continually improve our environmental performance we will:

- Operate a FSC® chain of custody scheme, monitored to ensure that timber used is certified as sustainable. (Certificate No INT-COC-002174) (Licence No FSC-C134743)
- Operate a PEFC chain of custody scheme, monitored to ensure that timber used is certified as sustainable. (Certification No CATG-PEFC-506)
- Work with suppliers where possible to ensure that they are certified and have a positive attitude to the environment.
- Minimise customer waste by optimizing deliveries and reducing packaging.
- Minimise our waste by recycling timber off-cuts and reducing to zero, as a goal, waste to landfill.
- Produce heat on site through utilizing a proportion of our own wood waste.
- Continually improve our working practices to reduce impact through noise on our neighbours.
- Develop new products which reduce the impact of construction on site.
- Work with our waste management contractors to keep up to date with all legislation and procedures.

Stephen Thompstone, CEO
